DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/05/2004 has been entered.

Drawings

2. In light of the specification (page 5, lines 8-14), the previous objection to the drawings is hereby withdrawn.

Allowable Subject Matter

3. Claims 1-12 and 25 are allowed.

4. The following is an examiner's statement of reasons for allowance:

A search of the prior art did not disclose a multi-directional diffusion-symmetry slant reflector comprising a combination of structural elements, more specifically:

(a) Each of the diffusion-symmetric slant reflectors has a slant surface with a gradual decreasing height from a central point toward a periphery and a plurality of bumps formed on the slant surface wherein each of the bumps is in spatial separation on the slant surface.

The prior art teaches the formation of rough surfaces on slant reflectors and as pointed by the applicant, rough surfaces have bumps that are contiguous and are not spatially separated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

5. Applicant's arguments, see amendment, filed 05/05/2004, with respect to claim 1 have been fully considered and are persuasive. The final rejection of 01/05/2004 has been withdrawn.
